March 14th 2017.

At the 11th hour the Mount Beauty Music Festival has been rescued with a group of passionate volunteers to the rescue. The committee are now preparing to present a festival similar to previous years in late April 2019. With a full weekend jammed packed with music, markets, food and fringe style events. Held at three venues central to Mount Beauty. The committee members are all local residents with a vast background in music, radio, arts, and event management. It is an important festival not just for tourism but also our community. We plan to get our community groups involved, and provide entertainment for the whole family. The Alpine Shire have been very supportive, and we have received many letters of support from local groups to assist us with our future plans. ' We are very excited, we know there is a huge amount of work involved, but this is a great opportunity to show the community what we can achieve in a regional town.' said Jocelyn Scherf President.
